ChessZ

24 px lockup

Below 24 px, drop the tile and set the bare Z in ink or bone.

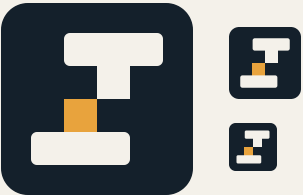

■ Ink #14202B □ Bone #F4F1EA ■ Amber #E8A33D ■ Amber deep #C9872A

Unit = 1/4 of Z height. Bars 3u × 1u, offset one unit. Diagonal 2 × 1u blocks, corner to corner.

Tile treatments

THE 4 × 4 GRID, BARS AND TWO-BLOCK DIAGONAL ARE IDENTICAL IN ALL THREE

2a TIGHT

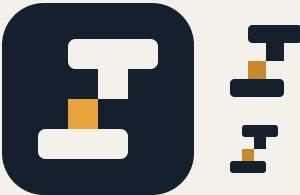

Tile radius 9. Bar ends 2. Z fills 44 of 64 – densest of the three, holds up best at 24 px.

2b ROOMY

Tile radius 18. Bar ends 3.5. Z fills 36 of 64 – more air, softer, reads as a consumer app icon.

2c UNTILED LOCKUP

Same geometry as the baseline. The bare Z carries the lockup; the tile is reserved for app and favicon.
